

Visit to Kenya July/August 2018

Please pray for:

Safe journeys and no complications at Istanbul this time.

Successful negotiations on the remaining building work—and that the outstanding finance will be forthcoming.

The good health of all our students and teachers and the support we receive from Dr Luke Odiero

That educational expectations will be maintained and the motivation of our hardworking teachers will not decrease.

Adequate resources to meet the needs of all curriculum areas.

Maintain the high standard of results gained in KCPE - proof that just because you were born in a slum you cannot achieve as much as anyone else.

Unity School, Mombasa

The focus of my visit will be to see the progress at Unity School.

- The new classroom block should be completed and, if possible, formally handed over from the builder to the school..
- A pleasant task will be to oversee the ordering of new textbooks—Thanks to the generosity of Dan and Katrina Purchase who asked for donations to this cause instead of wedding gifts. (Six children to one textbook is not good!)
- The new classrooms need to be fitted out and some of the remaining “old” ones reequipped. Estimating costs will be important.
- Looking at how the new Kenyan Curriculum is shaping up and how we can help our teachers plan for its full implementation..
- Catching up with our Secondary School and University Students.
- I hope to see the results of some of the projects started during my last visit –like the kitchen garden.
- I also hope to enjoy some art work—I will be taking out drawing and painting materials—and also some drama using a few puppets that have been donated. The Art work is planned to go on display in September at Littlehampton United Church During the Gift Art Trail .
